

HÔTA by John J Doyle Ltd

Why choose HÔTA?

We at HÔTA have been making fireplaces and stoves for a long time now - a combined experience of more than 70 years. Our customers talk about how our great designs deliver efficient and cost effective heat to keep their homes cosy. This has developed a reputation for exceptional customer service.

When you choose a HÔTA fireplace, you make a choice for life, so you need to know that you're making the right choice. We have worked with countless fireplaces in almost every type of space imaginable, so we can help you decide exactly what works best in your home.

We hand-pick our dealers not only for their intimate knowledge of fireplaces and secondary heating appliances, but also for their brilliant customer service. They'll be with you right from the start - from choosing the right fireplace for you home, installation and maintenance for many years to come. Our dealers are spread out all over the UK and Ireland, so wherever you are you'll always be in safe hands.

Naples in Alpine White featuring Ares 8L Stove with 4-Sided Glass Trim and Arched Over Mantel Mirror in Alpine White

About the Marble Collection

The HÔTA Marble Collection by John J Doyle Ltd uses micro marble guaranteeing the cool charm and sophistication of marble with an even tone, minimal maintenance and strength to last for generations to come.

Our micro marble is a reconstituted mix of grounded marble which is then added to a resin mix to create the even surface micro marble is renowned for.

The Marble Collection includes three ranges: Marble Surrounds, Complete Marble Fireplaces and Marble Electric Suites. The Marble Surround range does not include a hearth or back panel allowing for customisation. The Complete Marble Fireplace range includes a surround, back panel and hearth. The Marble Electric Suite range includes a surround, back panel, hearth and Bespoke 640 HD+ Slimline electric fire.

The craftsmanship and beauty of the Marble Collection is one that must be seen in person to be fully appreciated.

About the Natural Stone Collection

The HÔTA Natural Stone Collection by John J Doyle Ltd features an array of fireplaces suitable for all design styles, from traditional to modern to unique.

All of our fireplaces included in the Natural Stone collection only use top quality materials. The quarried stone is carefully selected by expert suppliers and then cut, carved and smoothed to create a beautiful fireplace to last for generations.

The Natural Stone Collection only uses natural stone so there is some natural variation which may include fossils, crystal marking, shading or veining. The finish of the fireplace you order may vary slightly from what is shown in this brochure. This unique quality is why natural stone fireplaces have been sought after for centuries.

Finishes

Aegean Limestone

Aegean Limestone is a white coloured natural stone with a very thin grain and uniform background. Sourced in Turkey, our fireplaces take advantage of the natural shading present in this beautifully consistent and uniform limestone. Popular with architects and interior designers; this best-selling material remains a hugely popular choice in homes across the island of Ireland.

Travertine

Travertine is one of the most frequently used stones in modern architecture. Over millions of years natural processes have compressed grains of sand and minerals to produce this beautiful stone material. Sourced in quarries throughout Turkey and Italy, each unique fireplace created from this beautifully textured stone is bound to create an outstanding feature in any home.

Rio Cinza Limestone

This natural grey limestone from Brazil has hard properties with dispersed darker shades and grain colour trends from medium to coarse. A specially textured honed finish has been selected for our Rio Cinza material. This uniquely textured limestone has garnered a huge amount of interest in beautiful homes all over the country.

Grey Emperador

A beautifully complicated grey marble with typically intricate white emperador veining. The white smokey motions on the grey background of the marble give the stone an elegant look. Our grey emperador fireplaces are a welcomed addition to our range of natural stone fireplaces.

Portuguese Limestone

At HÔTA we like this versatile limestone for its use on a diversity of applications. Often this material can feature a beautiful and unique parallel vein. This premium limestone presents a light cream colour with slightly greyish tonalities. It may also show dispersed coffee-coloured shading and some fossils. Overall, this is a very durable, uniform and versatile limestone which can be used on almost all types of projects without limitation.

THE BESPOKE COLLECTION

At HÔTA our true passion is making your dream living space a reality.

We believe in the fusion of modern and traditional design and manufacturing. Nowhere is this dedication to artisan craftsmanship seen more clearly than our Bespoke Collection.

Perhaps you require one of our standard stock items but in an unusual size, a match for an existing model, carved detailing, or particular colour of marble. HÔTA stonemasons and designers are happy to work from your photographs or original plans.

HÔTA can produce a fireplace in any material, working from photographs, magazine cuttings, sketches or drawings. Utilising our combined experience of almost 70 years, we will faithfully produce any style of fireplace to your specifications. Material references will be provided and the project discussed with you in depth before our in-house craftsmen turn your dreams into reality.

Send through your design ideas and watch them become a reality.

One size does not suit all. We have made it even easier to access bespoke, custom designs at an affordable price.

Our dedicated team of professional designers help you to create your perfect fireplace in your style and within your budget.

We will work with you to achieve a cohesive look and feel, and even incorporate existing materials you may want to keep. We can work from architect drawings or even basic room plans to agree layouts. We can source any marble or natural stone materials to pull the look together.
